

WRAPAROUND PRIVACY POLICY

Effective Date: August 1, 2026

Last Updated: August 11, 2026

This Privacy Policy explains how Lucas Align LLC ("Lucas Align," "we," "us," or "our") collects, uses, stores, protects, and discloses information in connection with the Wraparound platform, website, mobile applications, and related services (collectively, the "Platform").

Wraparound is designed to help organizations coordinate people, volunteers, resources, communication, scheduling, training, Care Communities, mentoring, and support surrounding families and individuals.

Because organizations may use Wraparound in connection with foster care, adoption, kinship care, child welfare, family preservation, mentoring, church ministry, and other community-support programs, we recognize that information maintained through Wraparound may be sensitive.

We take that responsibility seriously.

By accessing or using Wraparound, you acknowledge the practices described in this Privacy Policy.

1. OUR ROLE

Lucas Align provides the technology underlying Wraparound.

Organizations using Wraparound may include churches, ministries, nonprofits, child-welfare organizations, counties, agencies, and other community organizations.

In many circumstances, the organization using Wraparound determines:

- what information is entered into the Platform;
- which individuals are included;
- why information is collected;
- who within the organization may access information;
- which users receive particular roles or permissions; and
- how long certain organizational information should be maintained.

Lucas Align processes that information as necessary to provide, maintain, secure, support, and improve Wraparound.

Organizations remain responsible for determining whether they have appropriate legal authority, consent, or another lawful basis to collect and provide information through Wraparound.

2. INFORMATION WE COLLECT

The information collected through Wraparound depends upon how an organization configures and uses the Platform and the user's role.

A. Account Information

We may collect information necessary to establish and maintain a Wraparound account, including:

- name;
- email address;

- telephone number;
- organization;
- church or ministry affiliation;
- user role;
- account credentials or authentication identifiers;
- profile information; and
- account status.

B. Volunteer and Program Information

Organizations may maintain information concerning volunteers, mentors, Care Community participants, advocates, coordinators, caregivers, and other program participants.

This may include:

- contact information;
- volunteer roles;
- availability;
- assigned teams or communities;
- training status;
- clearance or screening status;
- certifications;
- tasks;
- schedules;
- service history; and
- program participation.

The presence of clearance, training, or screening information within Wraparound does not necessarily mean Lucas Align conducted or independently verified the underlying screening.

C. Family and Care Community Information

Organizations may use Wraparound to coordinate support for families and individuals.

Depending on the organization's use of the Platform, information may include:

- family or caregiver names;
- household information;
- contact information;
- Care Community assignments;
- support requests;
- schedules;
- meal needs;
- transportation needs;
- childcare needs;
- household assistance;

- resource needs;
- notes necessary for coordination; and
- other information entered by authorized users.

D. Information Concerning Children

In some circumstances, organizations may enter information concerning children or youth in connection with foster care, adoption, kinship care, mentoring, family preservation, or other support programs.

Lucas Align does not require organizations to provide more information about a child than is reasonably necessary to use the applicable Platform features.

Organizations should avoid entering unnecessary sensitive information and are responsible for determining what information concerning children they are authorized to provide through Wraparound.

E. Communications

When users communicate through Wraparound, we may process information associated with those communications, including:

- in-app messages;
- group communications;
- email communications;
- SMS-related information;
- notifications;
- comments;
- responses; and
- communication timestamps.

F. User Content

Users and organizations may provide information such as:

- notes;
- photographs;
- documents;
- requests;
- schedules;
- messages;
- records;
- forms; and
- other content submitted through the Platform.

G. Technical and Usage Information

When you access Wraparound, certain technical information may be collected automatically, including:

- IP address;
- browser type;
- device type;
- operating system;

- login activity;
- date and time of access;
- pages, screens, or features accessed;
- application performance information;
- error and diagnostic information; and
- general usage activity.

We use this information to operate, secure, troubleshoot, understand, and improve Wraparound.

3. HOW WE USE INFORMATION

Lucas Align uses information collected through Wraparound only for purposes related to providing, operating, securing, understanding, and improving the Platform.

These purposes include:

- providing Wraparound to users and customer organizations;
- creating and maintaining accounts;
- authenticating users;
- applying roles and permissions;
- facilitating Care Community and program coordination;
- enabling communication;
- providing notifications and reminders;
- supporting scheduling and task coordination;
- providing customer support;
- troubleshooting technical issues;
- maintaining security;
- preventing unauthorized access;
- monitoring reliability and performance;
- understanding how Platform features are used;
- producing usage and analytics information;
- improving existing Wraparound features;
- developing improvements to the Platform;
- complying with applicable legal obligations; and
- enforcing our agreements and protecting the Platform.

Lucas Align does not use information submitted by customer organizations for unrelated advertising or marketing purposes.

4. ANALYTICS AND PRODUCT IMPROVEMENT

We may analyze how Wraparound is used to understand Platform performance and improve the user experience.

For example, we may evaluate:

- which features are frequently used;
- where users experience errors;

- Platform performance;
- general adoption of Platform functionality;
- aggregated program activity; and
- patterns that help us improve workflows and functionality.

Where reasonably possible, Lucas Align will use aggregated or de-identified information for broader product analytics rather than identifiable family or child information.

We do not use sensitive family or child information to create advertising profiles.

5. WE DO NOT SELL PERSONAL INFORMATION

Lucas Align does not sell personal information collected through Wraparound.

We do not operate Wraparound as an advertising marketplace, data broker, or consumer-profiling service.

Information entrusted to Wraparound exists to support the organizations, volunteers, families, and communities using the Platform - not to become a product for sale to advertisers.

6. WHO CAN ACCESS INFORMATION

Access to information within Wraparound is generally determined by the customer organization and the roles and permissions assigned to individual users.

Customer organizations may authorize their personnel, coordinators, advocates, team leaders, volunteers, mentors, caregivers, or other appropriate users to access information necessary for their responsibilities.

Users should only access information necessary for their authorized role.

Lucas Align Access

Authorized Lucas Align personnel may access information when reasonably necessary to:

- operate the Platform;
- provide customer support;
- investigate technical issues;
- maintain Platform security;
- troubleshoot errors;
- maintain and improve Wraparound;
- respond to an authorized customer request; or
- comply with applicable legal obligations.

Lucas Align limits access to individuals who have a legitimate operational need for such access.

7. SERVICE PROVIDERS AND TECHNOLOGY INFRASTRUCTURE

Although customer organizational data is accessible through Wraparound by the customer organization and Lucas Align as described above, Wraparound necessarily relies upon technology infrastructure to operate.

Information may therefore be processed through technology providers performing services on our behalf, such as:

- cloud hosting;
- database infrastructure;
- authentication;
- email delivery;
- SMS delivery;
- push notifications;
- application monitoring;
- security;
- backups; and
- related technical infrastructure.

These providers process information to provide technology services to Lucas Align and are not authorized by Lucas Align to independently use Wraparound customer data for their own unrelated purposes.

Lucas Align does not authorize these service providers to sell Wraparound customer data.

8. ORGANIZATIONAL CONTROL OF DATA

Customer organizations maintain responsibility for the information they choose to place into Wraparound and for determining who within their organization should have access to that information.

Organizations are responsible for:

- determining what information should be collected;
- ensuring they have authority to collect or disclose that information;
- assigning appropriate user permissions;
- removing access when a user's role changes or ends;
- complying with applicable confidentiality requirements;
- complying with applicable laws, court orders, contracts, and agency policies; and
- establishing appropriate internal privacy practices.

Lucas Align provides technology and security controls to support these responsibilities but does not independently determine an organization's legal authority to disclose particular child-welfare, educational, medical, court, or other protected information.

9. CHILDREN'S INFORMATION

Wraparound may contain information about children because organizations use the Platform to coordinate services surrounding children and families.

This is different from operating Wraparound as a consumer service directed toward children.

Children should not independently create Wraparound accounts unless expressly authorized by the applicable organization and permitted by law.

Information concerning a child should be entered only by an organization or authorized user with appropriate authority to provide that information.

Organizations should limit information concerning children to what is reasonably necessary for the applicable program or coordination purpose.

Lucas Align does not knowingly sell, advertise against, or create commercial marketing profiles from children's information contained in Wraparound.

10. SENSITIVE INFORMATION

Because of the nature of the organizations using Wraparound, some information maintained within the Platform may be particularly sensitive.

Users and organizations should exercise caution before entering information such as:

- detailed medical records;
- mental-health records;
- Social Security numbers;
- financial account information;
- detailed court records;
- educational records;
- abuse or investigation records;
- government identification numbers; or
- other information that is not necessary for the intended Wraparound function.

The ability to enter information into a field does not mean Lucas Align recommends that the information be entered.

Organizations remain responsible for determining what information is appropriate and legally permissible to maintain through the Platform.

11. SECURITY

Lucas Align uses reasonable administrative, technical, and organizational safeguards designed to protect information maintained through Wraparound.

Security measures may include, as appropriate:

- authentication controls;
- role-based access;
- access restrictions;
- encryption;
- secure infrastructure;
- logging and monitoring;
- backups;
- software maintenance;
- vulnerability remediation; and
- other reasonable security practices.

No electronic system can guarantee absolute security.

Users are also responsible for protecting their account credentials and devices and for promptly reporting suspected unauthorized access.

12. DATA RETENTION

Lucas Align retains information for as long as reasonably necessary to:

- provide Wraparound;
- maintain customer accounts;
- fulfill the purposes described in this Privacy Policy;
- comply with contractual obligations;
- resolve disputes;
- maintain appropriate business and security records; and
- satisfy applicable legal requirements.

Retention periods may vary depending on the type of information and the requirements of the applicable customer organization.

Organizations may also establish their own retention requirements.

13. ACCOUNT TERMINATION AND DATA DELETION

When an organization's Wraparound service ends, Lucas Align may provide a reasonable period for authorized data export or transition where required by the applicable organization agreement.

Following termination, organizational data may be deleted or de-identified according to Lucas Align's retention practices, contractual requirements, backup cycles, and applicable law.

Certain information may be retained when reasonably necessary for security, fraud prevention, legal compliance, dispute resolution, or enforcement of agreements.

Backup copies may remain for a limited period until they are overwritten or deleted according to normal backup procedures.

14. ACCESS, CORRECTION, AND DELETION REQUESTS

Users who wish to access, correct, or delete information maintained about them should generally contact the organization through which they use Wraparound.

Because customer organizations often determine what information is maintained and how it is used, Lucas Align may refer a privacy request to the appropriate customer organization.

Users may also contact Lucas Align at:

admin@lucasalign.com

We will respond to appropriate requests consistent with our role, contractual obligations, and applicable law.

15. COOKIES AND SIMILAR TECHNOLOGIES

Wraparound websites and web applications may use cookies, local storage, authentication tokens, and similar technologies necessary to:

- keep users signed in;
- maintain security;
- remember appropriate settings;

- provide Platform functionality;
- understand Platform usage; and
- improve performance.

We do not use these technologies to sell customer organizational data or create advertising profiles from sensitive Wraparound information.

16. EMAIL, SMS, AND NOTIFICATIONS

Wraparound may send transactional or operational communications such as:

- account notifications;
- login or security notices;
- Care Community updates;
- task reminders;
- schedule reminders;
- training reminders;
- messages;
- invitations; and
- other program-related communications.

SMS and email delivery may require information to be processed by the applicable communications provider.

Message and data rates may apply to SMS communications.

17. LEGAL DISCLOSURES

Lucas Align may disclose information when we reasonably believe disclosure is required to:

- comply with applicable law;
- respond to valid legal process;
- comply with a court order;
- protect the security or integrity of Wraparound;
- investigate fraud or unauthorized activity;
- protect the rights or safety of Lucas Align, our customers, users, or others; or
- establish, exercise, or defend legal claims.

Where legally permissible and appropriate, we may direct requests for customer-controlled organizational data to the applicable customer organization.

18. BUSINESS TRANSFERS

If Lucas Align is involved in a merger, acquisition, financing, restructuring, sale of assets, or similar business transaction, information may be transferred as part of that transaction subject to appropriate confidentiality protections and applicable law.

Any successor responsible for Wraparound would remain subject to applicable privacy obligations concerning information transferred as part of the transaction.

19. THIRD-PARTY LINKS AND SERVICES

Wraparound may contain links to or integrations with third-party services.

This Privacy Policy applies to information processed by Lucas Align through Wraparound and does not necessarily govern the independent privacy practices of third parties.

Users should review applicable third-party privacy policies when using external services.

20. DATA BREACHES AND SECURITY INCIDENTS

If Lucas Align becomes aware of a security incident involving personal information maintained through Wraparound, we will investigate and respond in accordance with applicable law and our contractual obligations.

Where notification is legally or contractually required, Lucas Align will provide appropriate notice to affected customer organizations or individuals as applicable.

Customer organizations are responsible for maintaining accurate administrative contact information so that important security communications can be delivered promptly.

21. CHANGES TO THIS PRIVACY POLICY

Lucas Align may update this Privacy Policy as Wraparound evolves, our practices change, or legal requirements develop.

The “Last Updated” date at the beginning of this Policy identifies the most recent revision.

When we make material changes, we may provide notice through Wraparound, email, or another appropriate method.

Where required, we may request acknowledgment of an updated Privacy Policy.

22. RELATIONSHIP TO CUSTOMER AGREEMENTS

Customer organizations may have separate agreements with Lucas Align governing use of Wraparound, including organization agreements, data-processing agreements, confidentiality provisions, or security requirements.

If a separately executed agreement contains additional or more specific requirements regarding organizational data, that agreement will apply according to its terms.

23. YOUR PRIVACY MATTERS

Wraparound exists to help people support people.

The information maintained within the Platform can represent real families, real children, real volunteers, and real circumstances. We believe technology serving that work should be built and operated with appropriate care.

Our goal is not to collect as much information as possible.

Our goal is to responsibly use the information necessary to make Wraparound useful to the people and organizations doing the work.

24. CONTACT US

PRIVACY ACKNOWLEDGMENT

By accessing or using Wraparound, you acknowledge that you have been provided access to this Privacy Policy and understand that information associated with your use of Wraparound will be handled as described herein.

Where you use Wraparound through a participating organization, you also understand that the organization may maintain its own privacy, confidentiality, retention, and information-sharing policies that apply to your participation.
